BACKGROUND

emergency funds for motel vouchers, they were expensive and quickly spent and many homeless still had to be turned away. A Governor's Executive Order allowed National

Guard armories to be opened as shelters, but San Bernardino County chose not to invoke the order and open the armories due to the costs of staffing, equipment, and liability. This decision sparked severe criticism through the press, and County officials realized they needed a more coordinated approach to serve the homeless population.

In the spring of 1989 a Homeless Task Force was formed, led by CAPSBC (formerly known as CSD), comprised of County departments that directly or indirectly served the homeless. The primary responsibility of the Task Force was to prepare for the winter of 1989-90 and develop a Cold Weather Plan. A plan was developed to provide emergency shelter for the homeless during the cold weather season, October 1, 1989 through March 31, 1990. The media participated by publicizing the services available. The Cold Weather Plan was implemented effectively and efficiently, providing 16,000 shelter nights for the winter of 1989-90. Although the Task Force was not a resolution to the problem of homelessness in San Bernardino County, it did improve coor-

The formation of the Homeless Coalition was initiated in the late 1980's when extreme cold weather conditions forced the County to take a close look at its problem of homelessness. Arctic conditions hit Southern California in the winter of 1988/1989. The County's geographical size and diversity, along with a fragmented service delivery system and inadequate shelters, further compounded the problem. In December 1988, area shelters were overflowing due to severe cold weather. Although the County released \$50,000 in

mary responsibility of the Task Force was to prepare for the winter of 1989-90 and develop a Cold Weather Plan. A plan was developed to provide emergency shelter for the homeless during the cold weather season, October 1, 1989 through March 31, 1990. The media participated by publicizing the services available. The Cold Weather Plan was implemented effectively and efficiently, providing 16,000 shelter nights for the winter of 1989-90. Although the Task Force was not a resolution to the problem of homelessness in San Bernardino County, it did improve coor-

dination and communication among County departments, city agencies, and faith and community based organizations. It also raised community awareness of homelessness and identified the need for an ongoing strategy for addressing the problem.

Taking the Task Force a step further, on February 26, 1991, a Public Hearing on Homelessness was held at the County Government Center in San Bernardino. The goal of the public hearing was to improve the coordination of services to San Bernardino County's homeless population through information sharing, problem identification, and planning. **The number one recommendation as a result of the Public Hearing was for the establishment of a Countywide Homeless Network.** The recommendation called for the establishment of a Homeless Policy Council

that would include a member of the County Board of Supervisors with appointed representatives to provide leadership in the development of comprehensive and coordinated services. Thus, the San Bernardino County Homeless Coalition (SBCHC) was formed. In addition, a non-profit arm, Homeless Coalition Resources, Inc. (HCRI), was established as the vehicle for fund raising for the Homeless Coalition. The purpose of HCRI is to solicit, inventory, and distribute needed resources and services to homeless and near homeless families/individuals within San Bernardino County.

The Homeless Coalition was originally estab-

lished under the Department of Public Social Services in 1991. In October 1993, it was placed under the direction of Community Action Partnership of San Bernardino County (CAPSBC), the Community Action Agency for San Bernardino County. In November 2002, CAPSBC conducted the first comprehensive street count and survey of homeless in an Bernardino County. While not a direct service entity, the Homeless Coalition provides information to homeless persons regarding shelters, transitional housing programs, alcohol and drug rehab programs, and other resources. The Coalition convenes regular monthly meetings of the Next Steps Homeless Task Force, and quarterly meetings of the Homeless Coalition Policy Council. In July 2003, CAPSBC was reorganized as a 501 c(3) public benefit corporation.

CAPSBC HOMELESS COALITION

San Bernardino Homeless Coalition Policy Council

The Homeless Coalition Policy Council provides leadership in creating a comprehensive countywide network of service delivery to the homeless by facilitating better communication and planning among all entities that provide services in San Bernardino County.

“Next Task Force”

“Next Steps Task Force” is a collaboration of approximately 60 independent, homeless-serving organizations from various communities of San Bernardino County. The Task Force meets monthly, and coordinates activities through subcommittees that focus on particular sets of solutions.

Subcommittees include Housing, Homeless Management Information System, Access to Transportation, Political Partnership and 10-Year Plan.

San Bernardino County Continuum of Care

Since 1997, the San Bernardino County Continuum of Care (CoC) has received \$39 million from the US Department of Housing and Urban Development (HUD) for 50 projects that provide assistance to homeless families and individuals in San Bernardino County.

Homeless Management Information System (HMIS)

Community Action Partnership of San Bernardino County was awarded a grant to implement a computerized social services database system to track unduplicated homeless clients, and to improve the delivery of services to the homeless population in San Bernardino County.

Homeless Census and Survey Report of San Bernardino County

On July 14, 2003 the first comprehensive Homeless Census and Survey of San Bernardino County, California was published. On any given night in San Bernardino County there are between 5,270 and 8,351 individuals who are homeless.

A new Homeless Census and Survey was conducted on February 27-28, 2007.

San Bernardino Homeless Resources, Inc.

Homeless Coalition Resources, Inc. (HCRI) is a 501(c)(3) non-profit corporation designed to accept monetary gifts, hard assets, and in-kind contributions of services or goods from individuals, public sector agencies, private sector organizations, or community-based non-profit organizations. The purpose of HCRI is to solicit, inventory, and distribute needed resources and services to homeless and near homeless families/individuals within San Bernardino County.
